

Informacijska točka EFSA, ki deluje na Ministrstvu za kmetijstvo, gozdarstvo in prehrano, Upravi za varno hrano, veterinarstvo in varstvo rastlin (UVHVVR), v sodelovanju z Evropsko agencijo za varnost hrane (EFSA) in Ministrstvom za izobraževanje, znanost in šport (MIZŠ) organizira strokovno srečanje »**Možnosti znanstvenega sodelovanja in raziskav ter izzivi revidiranega splošnega zakona o hrani na področjih delovanja Evropske agencije za varnost hrane**«.

Strokovno srečanje je namenjeno predstavnikom organizacij, imenovanih po 36. členu Uredbe 178/2002, in drugih institucij, ki delujejo na področjih poslanstva Evropske agencije za varnost hrane.

Vsebina srečanja bo namenjena predstavitvi novosti revidiranega splošnega zakona o hrani (Uredbe 178/2002) in Uredbe (EU) 2019/1381 o preglednosti in trajnosti ocenjevanja tveganja v prehranski verigi v EU, ki bodo vplivale na področja sodelovanja z Evropsko agencijo za varnost hrane. Predstavljene bodo različne možnosti znanstvenega sodelovanja z EFSA, mednarodni projekti OBZORJE 2020 in COST ter primeri znanstvenega sodelovanja v praksi.

Srečanje bo priložnost za izmenjavo mnenj in dobrih praks ter razpravo o izzivih, ki jih prinašajo spremembe na področju varnosti hrane. Učinkovita znanost zahteva povezovanje pravnih, družbenih in znanstvenih vidikov. Nove tehnologije in nepričakovana tveganja zahtevajo nova orodja in pristope. Znanje in sodelovanje sta ključna dejavnika za učinkovito soočanje z izzivi varnosti hrane.

The Ministry of Agriculture, Forestry and Food, Administration for Food Safety, Veterinary Sector and Plant Protection, EFSA Focal Point in cooperation with the European Food Safety Authority and the Ministry of Education, Science and Sport, organizes an expert meeting on “**Scientific Cooperation & Research Options and Challenges of revised General Food Law in the fields within the European Food Safety Authority's mission**”.

The meeting is intended for representatives of organisations designated under Article 36 of the Regulation 178/2002 and other institutions operating in the fields within the Authority's mission.

The meeting main focus will be challenges related to novelties of the revised General Food Law (Regulation 178/2002) and Regulation (EU) 2019/1381 on the transparency and sustainability of the EU risk assessment in the food chain, which will affect areas of cooperation with the European Food Safety Authority. Different possibilities of scientific cooperation with EFSA, the international projects HORIZON 2020 and COST, together with good practice examples will be highlighted.

The meeting will be an opportunity to exchange views and good practices and discuss the challenges, engendered by changes in the area of food safety. Effective science requires the integration of legal, social and scientific considerations. New technologies, and unexpected risks require new tools and approaches. Knowledge and cooperation are key factors to address effectively the food safety challenges.
