

Online Workshop “On-farm Composting” Wednesday 6th December 2023,

9.00 - 10.30 am CET
11:00 – 12:30 am EAT
04:00 – 05:30 pm PHST

Agenda:

09.00	Introduction, short presentation of EUKI improving C-balances project	Werner Vogt-Kaute, Naturland e.V.
09.15	On-farm composting at a horticultural farm in Germany	Matthias Pummer, Naturland farmer
09.45	Vermicompost in the Philippines	Lauro Diego, Masipag farmer
10.15	Conclusions and next activities	Werner Vogt-Kaute, Naturland e.V.

Registration: Please register before 4th of December by clicking on [THIS LINK](#).

The login data will be re-sent afterwards.

If you have any questions, contact h.vuggumudi@naturland.de

About Improving C-balances on livestock-free organic farms for the sequestration of atmospheric carbon:
Many farms without livestock lost organic matter in the last decades. The projects' aim is to establish agriculture methods and crops to build up carbon with the connected value chains in Slovenia, Serbia and Germany.
